

Quality Policy

HKW Risk Management Ltd is a B2B consultancy working with businesses in Bristol and the South West. We believe in making management systems simple. We help growing businesses look after their people, places and products by identifying and managing quality, health, safety and environmental issues. We help Directors and Leadership teams implement, integrate, and improve management systems to enhance the way their businesses operate and grow, achieving ISO certifications and eating cake along the way.

What we do and the way we do it is rooted in our business values:

- Keep it simple – we translate the quality management principles and ISO requirements into straightforward actions to improve business processes and outcomes
- Stay curious – we always ask why something is done, and how it can be done better
- Do the right thing – we work with our clients to identify areas of non-conformance or improvement and report on them honestly
- Think green – we consider the environmental consequences of our actions and choices
- Be generous – we share our knowledge and experience openly with our clients with the intention that one day we will no longer be needed. We donate 5% of profits to our charity, St Richard's Hospice
- Have fun – we approach serious subjects with open hearts and a sense of humour

We are committed to:

- Satisfying relevant client and legal requirements
- Continually improving our management system and the services we offer our clients

This policy is communicated to all HKW Risk Management Ltd employees and associates, whilst being available to other interested parties on our website. This policy is reviewed annually to ensure that it remains appropriate to our strategic direction and is suitable, adequate and effective.

Helen Waddington, Director
